EDUCATION

K.M. Agrawal College, Kalyan, Maharashtra, India
Bachelor of Science in Information Technology
July 2022 – April 2025 CGPA: 8.80

SKILLS SUMMARY

- **Languages:** JavaScript, C, C++, Python, SQL
- **Frameworks:** React.js, Express.js
- **Tech Stack:** MERN STACK
- **Tools:** Git, GitHub, MongoDB, MySQL, Postman, Figma
- **Platforms:** VS Code, MongoDB Atlas
- **Skills:** Team Collaboration, UI/UX Principles, Debugging, Responsive Design

PROJECTS

Real-time Chat Application | MERN Stack

Developed a responsive full-stack chat application using MongoDB, Express, ReactJs, and NodeJs.

Integrated user authentication, group messaging, and real-time updates via WebSocket for seamless interaction.

Designed clean, user-friendly interfaces using React and responsive UI principles.
Implemented token-based authorization and modular backend architecture for scalability and maintainability.

Stock Market Analysis Platform | MERN Stack

Built a real-time stock analysis platform featuring dynamic chart rendering and trend forecasting.

Implemented user-selected stock comparisons with data sourced through APIs and MongoDB.

Ensured secure backend integration using Express.js and emphasized database optimization.

Prioritized intuitive design and responsive interaction to enhance user engagement.

CERTIFICATES

[React JS – Udemy Certificate](#)

Mastered component-based development, state management, and React Hooks with real-world projects.

[JavaScript – Udemy Certificate](#)

Acquired deep understanding of core JavaScript concepts including ES6, closures, and async programming.
